A FINANCIAL CRASH.

Isadore Cohenfield Quietly Disappears.

BALFOUR IN BIRMINGHAM.

A Brace of Scoundrels—Leasing a Railroad—American Turf—The Irish—General.

In a Bad Box.

NEW YORK, November 4.—Kessler & Co., bankers, have secured an attachment against the property in this State of Isadore Cohenfield, who is related to S. B. Rosenthal & Co., dealer in millinery, who recently assigned. The attachment is for \$14,735. In their affidavit they swear that Cohenfield fled with the intention of defrauding his creditors. A number of other attachments against the firm of S. B. Rosenthal & Co. have been issued.

This afternoon George H. Lichtenheim obtained an attachment for \$70,000 against Isadore Cohenfield on the ground of an alleged fraudulent disposal of property. Lichtenheim claims that he loaned Cohenfield \$70,000 in January, 1886, taking a mortgage on the latter's Bleeker Street property for the amount, but refrained from having it recorded at Cohenfield's request, and that Cohenfield has since sold the property. Lichtenheim also claims that he endorsed Cohenfield's paper to the extent of \$125,000, for which he is liable. There was filed, to-day, deeds of trust to Cohenfield's attorney, Julius J. Frank, and to the National Park Bank, for the benefit of a portion of its creditors. Bradstreet reports a rough statement of Cohenfield's affairs, as follows: Assets—cash, \$120,000; real estate, \$500,000; stock, \$150,000; accounts, \$90,000. Total, \$970,000. Liabilities—mortgages, \$350,000; due to merchandise, \$58,000; to banks, loans and contingent liabilities, \$350,000. Total, \$748,000. Surplus, \$222,000. Mr. Cohenfield's lawyers had partly secured an extension from the principal creditors, when the difficulties of J. B. Rosenthal & Co., of St. Louis, and Ackerman Brothers, of San Francisco, with whom they had been exchanging papers, left \$80,000 to be provided for. Cohenfield is said to be the largest feather manufacturer in the United States, and has branches in Chicago, London and Paris. It is not yet known where he is.

Balfour in Birmingham.

LONDON, November 4.—Balfour, Chief Secretary for Ireland, went to Birmingham to-day and attended the first annual meeting of the Midland Conservative Union. He was accompanied by a detective and the chief of the Leamington police. At Birmingham, armed detectives were posted at the depot to watch for suspicious characters. Balfour during the day gave assurances that government was resolved to proceed boldly and firmly with the work they had taken in hand in Ireland and bring it to a good conclusion.

Balfour addressed a large and enthusiastic audience at the Town Hall this evening. He said he hoped that at the next session of Parliament England and Scotland would get a fair share of legislation. Still, the Irish question would remain the foremost problem in the mind of every one who took an interest in the fortunes of his country. The question was not whether Ireland was to be governed under her own or the English Parliament, but whether she was to be governed at all in accordance with any of those principles which had hitherto regulated the action of every civilized state in the world.

The remainder of his speech was principally devoted to the defense of the action of the police at Mitchelstown and attacks on Gladstone's policy. He concluded by predicting that a steady application of the present policy of the government would result in the Irish becoming enthusiastic and loyal supporters of an empire which they, by their virtues, were fitted to adorn.

A Brace of Scoundrels.

WASHINGTON, November 4.—Sheburn T. Hopkins, who informed the police that a mysterious package supposed to be an infernal machine had been sent to Chief Justice Waite, made a confession this morning that he and Arthur B. Sperry had invented the whole scheme for the purpose of selling the story to the newspapers. The phial, which was found in the package contained only ink and a very small quantity of powder, just sufficient to burst the phial, and alarm the person who might open the package. Hopkins and Sperry were immediately arrested, charged with conspiracy to defraud newspaper correspondents.

WASHINGTON, November 4.—A chemist examined the package this afternoon, and found that Hopkins' statement as to its contents was substantially correct, except as to the percussion caps, which he said were exploded, but which the chemist found to be new. The postal authorities say there is no Federal law under which the two newspaper men can be prosecuted, and that the only action that can be taken is possibly under the District laws.

Sank, With All on Board.

NORFOLK, Va., November 4.—A report has been received here that the schooner *Ocean Bird*, of Wilmington, N. C., Captain Edward C. Daniel, carrying the mail between Nag's Head, Manteo and Elizabeth City, N. C., sank during the storm on Monday night, in Pasquotank River, and all on board were lost. The passengers on the boat, it is thought, numbered ten.

Another Stroke of Ill-Luck.

INDIANAPOLIS, November 4.—The circus train which met with an accident in St. Louis, yesterday, had another stroke of ill-luck to-day. Four coaches were derailed on the Vandavia line, near Brazil, Ind. Several persons were badly bruised. The pecuniary loss will reach \$100,000.

American Turf.

WASHINGTON, October 4.—Weather fine, good track.

The Irish.

DUBLIN, November 4.—Government is resolved to prosecute all persons who took part in the midnight meeting at Woodford on October 26th, at which the proclamation of the Lord Lieutenant forbidding the meeting, was burned. Among those to be prosecuted are James Rowland, T. P. Gill and David Sheehy, Members of Parliament, and Denehy, secretary to the Lord Mayor of Dublin.

Cox, Member of Parliament, failed to appear at Ennis Court in answer to a summons for attending proclaimed meetings in County Clare, and a warrant for his arrest has been issued.

PARIS, November 4.—Newspapers admit that the passage of the rentes conversion bill by the Chamber of Deputies is a victory for government. They attribute government's success to the support received from the Right, a majority of whom changed front and voted for the bill.

The *Journal des Debats* asserts that the rupture between Radicals and government is of the acutest nature.

Taffy From the Queen.

LONDON, November 4.—The *Gazette* says: The Queen, through Mr. Mathews, Home Secretary, wishes to express her warm thanks to the mayors and municipal officers of the towns throughout the Kingdom for the zeal, loyalty, personal exertions and sacrifices which contributed so much to render the jubilee a conspicuous historical event. The Queen is conscious how efficiently they were seconded by the unanimous and cordial concurrence of all her subjects, whose affection and loyalty were never exhibited with more warmth, and will never be forgotten by her.

Fire.

NASHVILLE, Tenn., November 4.—Fire, early this morning, on College Street, caused a loss of \$50,000 to Weakly & Waters' furniture stock, \$17,000 to Atwell & Sneed's furniture stock and \$50,000 to Webb, Seavens & Company's hardware stock. The insurance amounts to three-quarters of the loss. During the progress of the fire the walls of the building fell, and a number of people were injured, some probably fatally. The telegraph and telephone wires in nearly all directions were burned.

What They'll Lose.

NEW YORK, November 4.—Nothing has been heard of David Scott, the missing member of the paper manufacturing firm of Vernon Bros. & Co. So far, the expert accountants find that the firm will lose about \$100,000 through Scott. Another attachment was taken out to-day against the Ivanhoe Paper Company, of which he is president.

Leasing a Railroad.

BOSTON, November 4.—At a meeting of the directors of the Old Colony Railroad, to-day, it was voted to lease the Boston and Providence road for ninety-nine years, at 10 per cent. on the capital stock and \$1,000,000 bonds. A majority of the stockholders of the Providence road have already signed their acceptance.

Recognized.

WASHINGTON, November 4.—The President has recognized Auguste De Bellefont Boudomons, as consul of Belgium at Emporia, Kansas, for the States of Kansas, Colorado and Nebraska.

Probate Business.

In the Probate Court, yesterday, an order was made appointing M. E. Cummings, D. A. Swan and Thomas W. Jennings appraisers of the estate of Sidney K. Hooper, a minor, on certain property sought to be sold.

In the matter of the estate of Thomas Taysun, deceased, an order was made to show cause why order of sale of real estate should not be made.

THE TOPMOST TOPIC.

What Governor Oglesby Intends Doing.

LET THE LAW TAKE ITS COURSE

Depraved and Cranky Utterances of a New York Anarchist—General Speculations—Etc.

The Anarchists.

CHICAGO, November 4.—The story from Pittsburgh with the alleged Anarchist sensation is smiled at here. It is full of inconsistencies and about the only basis there can be for it is that the man Owens was perhaps a member of one of the Anarchist groups and left Chicago in the general exodus of those gentry after the Haymarket massacre.

Michael Schwab, brother-in-law of Schnaubelt, was seen in jail this evening and said little reliance could be placed in the story. Schnaubelt's only partner here was a machinist. He is not an Anarchist and is still in this city working at his trade.

SPRINGFIELD, Ill., November 4.—The Governor's Anarchist mail was a little more bulky than usual to-day, but its contents are a secret that is locked securely. He persistently declines to talk about the case. It is declared that the letters of Engel, Ling, Fischer and Parsons, in which they refuse to accept a commutation of sentence, have not been received, and it is believed that they have been kept back by friends of the condemned men.

Mrs. M. A. Miller, of Chicago, arrived in the city to-day, for the purpose of appealing to the Governor in behalf of the Anarchists. She made her headquarters at the Woman's Exchange, an attachment of the Woman's Christian Temperance Union, and went directly to the executive mansion. At the found the governor at home and stated her case. She afterwards said that she received respectful attention, but she was not satisfied with the result. The governor would not give her any indication of what he is likely to do. Mrs. Miller said that she thought that Governor Oglesby was very strongly inclined to let the law take its course, that he evidently believes in not interfering with the operation of the law without good cause therefor, and that she was not able to impress him very strongly with her views of the innocence of the condemned. She was much discouraged to ascertain that the governor is a believer in capital punishment. Mrs. Miller proposed to the Women's Christian Temperance Union ladies that a day of prayer be ordered, but the proposition received no favor and later in the day she left for St. Louis.

CHICAGO, November 4.—Captain Black and L. L. Oliver, of the Amnesty Association, have asked Mayor Roche for permission to circulate a petition at the street corners, invoking executive clemency for the condemned Anarchists. The mayor had no objection, providing it was done in a proper manner. Captain Black said, this evening, that he expected to go to Springfield on Monday, with the petition. "Such a petition as I shall carry," said the captain, "does not mean that the men renounce their principles; that they are down on their narrow bones begging for mercy, or that they regard themselves as guilty of any crime. It will be complying with the law in this matter and calling upon Governor Oglesby to perform a judicial act."

A telegram was sent, to-night, by George Schilling to Master Workman Quinn, of District Assembly 49, John Swinton, Robert G. Ingersoll and others in New York, saying a formal application to the governor for clemency will be made on Wednesday, November 9th, and that all delegations should be in Springfield not later than that morning.

NEW YORK, November 4.—A crowded meeting of the Progressive Labor party, in the Germania Assembly Rooms, S. E. Sherick, editor of the *Leader*, made a speech, in which he said: "I am expected to make a campaign speech, but I can't bring myself to speak calmly. This is Friday, November 4th, and on Friday, November 11th, the greatest crime and most atrocious murder ever perpetrated is fixed to take place in Chicago. But I tell you that this crime of base murder is committed, the end will soon follow. If these heroes are hanged, the days of all those concerned in the outrageous murder will not be far off when they will have to answer for the blood they shed, by every spark of life in their worthless bodies. (Loud cheers and cries of "Kill them!" "Dynamite!") But let them hang. Seven men's lives will not harm our cause, let them kill 77,000 and out of the graves 7,000,000 of others will arise. I tell you that if these men are hanged next Friday something thousands of times worse than our late civil war will follow. We will not see it done without acting."

WASHINGTON, November 4.—The Tribune, to-morrow, will say: "A joint committee of the Central Labor Union and District Assembly 49, of the Knights of Labor, has sent to every minister in this city an appeal, in which they say: 'We appeal to you to deal with the base of the Chicago Anarchists from the pulpit, or by private letter, to the Governor of Illinois, or to the press or to this committee.' Anarchists here say that the newspapers are alone responsible for the decision of the court, and every newspaper editor and reporter who has written anything against the condemned men has been marked out for the vengeance of the friends of the Anarchists."

Obituary.

ROME, November 4.—Cardinal Pellgrini is dead.

Nitro Glycerine Experiments.

NEW YORK, November 4.—The Sun, to-morrow, will say: "Yesterday, at Sandy Hook, Sergeant D. Smolianoff made experiments in firing nitro glycerine from a 100-pound parrot rifled gun, using eighteen pounds of service powder for a shot. The shells used were of about ninety-two pounds weight and were charged with five pounds of nitro glycerine each and provided with the inventor's ignitor. The gun was fitted in an ordinary cradle, and the shots were directed against a fourth-inch-thick target of wrought iron. At the first firing the shell duly exploded on the impact of the target, making a depression about four inches deep and displacing the target about three inches. Some fragments of the shell were scattered over the fortress, scaring those inside. She second shell exploded, making a crack in the target about fourteen inches long and a quarter of an inch wide and broke two rivets, one three and a half inches and the other two and a half inches in diameter. The third shell also exploded, making an impression about five inches deep. After the three shots the target was found displaced about eighteen inches and torn from the wooden base to which it was fastened. Up to this time this target has stood all kinds of shots, even gelatin-filled shells. The inventor believes that if he could have had steel instead of iron shells, the target would have been blown to fragments."

The Crows.

WASHINGTON, November 4.—The War Department is in receipt of a telegram from General Terry, stating that he has been advised by General Ruger that, in accordance with an agreement with Inspector Armstrong, he had ordered all the Crows to assemble on Friday.

ST. PAUL, November 4.—The *Pioneer Press* has advice from the Crow Agency, Montana, reporting affairs in *status quo*. The Indians in camp are throwing up light breastworks and digging holes in the ground. The authorities fear the Indians may stampede during the night. The procrastination of the military authorities is exciting the apprehension of both the whites and the Indians. The citizens of Billings have called upon Governor Leslie for arms to defend themselves with. General Ruger has instructed the authorities at the Cheyenne Agency to organize a company of Cheyenne Indians to hunt the Crows if they take to the mountains.

Seven companies of soldiers from Fort Custer arrived at noon, making a total of fifteen companies now here. The Indian chiefs had a council this morning, but its result is not known. The Indian troops are drilled daily, and may themselves attempt the arrest of the horse thieves.

The Triple Alliance.

LONDON, November 4.—A Vienna correspondent of the *Times* claims to know that a triple alliance was secretly concluded last spring, but the details were finally settled in a recent interview between Signor Crispi and Prince Bismarck. The treaty, says the correspondent, provides for a combined military and naval action by Germany, Austria and Italy against any attempt to disturb the balance of power in Europe. It also stipulates that territorial modifications shall be compulsory before the three allied powers will consent to sign a treaty of peace. The treaty further provides for a combined action for the conclusion of peace. No one of the three will be allowed to desist from war or to treat separately without the consent of the others. It is noteworthy that the alliance also covers the Mediterranean.

A Policeman Murdered.

CHICAGO, November 4.—Early this morning, in a lonely part of the west side, Police Officer Keegan was found lying dead on his back, with a wound on his forehead, evidently made by a blunt instrument. The officer was murdered while on his beat, and when found still clasped a revolver in his hand, but it had not been discharged. No clue as yet.

He was found with a bullet hole in his head and a pistol in his right hand, with one chamber empty. During the afternoon, Dr. Mercer made a post mortem examination of the body, and was of the opinion that the wound which caused death was self-inflicted.

Informal and Illegal.

CONCORD, N. H., November 4.—In the House, this afternoon, resolutions were passed, by a vote 134 to 155, reciting that the governor's veto of the Hazen Railroad bill, concerning the passage of which charges of wholesale bribery were publicly made, was informal and illegal; that the bill had, therefore, become law, and that it was certified with other acts passed, to the Secretary of State.

Small-Bore Rifles.

BERLIN, November 4.—The *Post* states, authoritatively, that the government has resolved to introduce, for use in the army, a very small-bore repeating rifle, probably of eight millimetres, and that the repeaters now in use will be transferred to the reserves and the landwehr. The change is made necessary, the paper says, because the French war department has adopted a small-bore rifle.

Hostilities Begun.

DURBAN, November 4.—It is reported that hostilities with Dinizulu, son of Cetewayo, have been begun and that a skirmish has taken place, in which three British soldiers were killed.

The 500th Performance.

PARIS, November 4.—Gounod, this evening, conducted the 500th performance of Faust. He was almost covered with wreaths and crowns.

He Left \$2,000,000.

LONDON, November 4.—Russell Sturgis, formerly a partner in the firm of Baring Bros. bankers, is dead. He left a fortune of \$2,000,000.

ABOUT THE FISHERIES.

Unrestricted Reciprocity is Advocated.

PACIFIC COAST POINTERS.

To Defeat a Strike—A Brutal Turfman—An Ugly Rumor—A Pretty Present—Etc.

The Fisheries Squabble.

TORONTO, November 4.—The *Globe* which has recently been protesting very vigorously against the appointment of Joseph Chamberlain as a member of the fisheries commission, comes out to-day in another strong editorial protesting against Chamberlain serving on the commission, and says there is no doubt his work on it will involve Canada in tremendous risks. The alternative of the acceptance of Mr. Bayard's proposals will be non-intercourse, commercial reprisals and probably war. The *Globe* says the case is one in which the United States has comparatively little to fear. Great Britain has to fear a large loss of trade, a large expenditure of money and the shedding of British blood, but not invasion. Canada has everything to fear, for there would be the battle ground, theirs would be the main cost, and their young men would furnish the bulk of the repast for the cannon crew. The paper then goes on to advocate unrestricted reciprocity as a perfectly honorable method of settling the dispute.

Pacific Coast Points.

SAN FRANCISCO, November 4.—The Pacific Mail Steamship Company has announced another cut of 15 per cent. in the freight tariff to all Pacific Coast points, in consequence of the competition of the new Spanish line. This makes a total reduction of 40 per cent. in rates since the war was inaugurated. The Spanish company say they will meet the reduction, and probably go under it.

Henry Edgerton, one of the most noted lawyers on the Pacific Coast, was found dead in his law office this morning. The supposition is that he died from apoplexy. He was by many regarded as the greatest orator on the coast. He was born in Vermont in 1830, and came here in 1853.

To Defeat a Strike.

NEW YORK, November 4.—Representatives of all pressed glass factories in the United States, in conference yesterday, decided to shut down every glass factory in the east at the close of the present month. This action was taken at the instigation of western manufacturers to prevent eastern employees giving aid to western men who have given thirty days' notice of a strike, owing to a disagreement about wages. Seven thousand skilled workmen are concerned.

A Brutal Turfman.

KANSAS CITY, November 4.—At Waldo Park, this morning, Ed Corrigan, the well-known turfman, struck T. J. Mosier, a reporter, in the face and knocked him down, after which he kicked him about the face and head until the reporter was insensible. Mosier's right jaw was broken, and his face and head were fearfully beaten and bruised. He was removed to the hospital. Corrigan has not been arrested.

An Ugly Rumor.

NEW YORK, November 4.—A Washington special to the Sun says: President Cleveland's cabinet will be recast the latter part of this month. Lamar will go on the Supreme Bench and Postmaster-General Vilas will be made Secretary of the Interior. The dispatch states that Don M. Dickinson, of Michigan, will be the next Postmaster-General unless he declines the appointment which has been tendered him.

A Pretty Present.

WASHINGTON, November 4.—Mrs. Cleveland, to-day, received from Fred Sullivan, postmaster at Jamaica, through Superintendent Bell of the foreign mail service, an elaborate and extremely handsome fan, made at the Woman's Self-help Institution of Jamaica, of native woods, ferns and flowers, artistically arranged.

A Little Sensation.

ST. LOUIS, November 4.—The remains of an exploded dynamite bomb were found last night, in the ruins of the Fourteenth Street explosion, but detectives believe it was placed there yesterday by some of the sensationalists, who have been writing to the newspapers, claiming that they were agents of the horrible crime.

Drowned in Sight of Loved Ones.

DENVER, Colo., November 4.—A Waldburg, Colo., special to the *News* says: "Rev. Mr. Tate, while boat-riding on a small lake near this city, capsized the boat and was drowned in the presence of his wife and children and several men, who were standing on the bank, but powerless to render assistance."

George Francis Train.

CHICAGO, November 4.—George Francis Train arrived this afternoon at 2 o'clock and stopped at the Palmer House. He states he will lecture in this city to-night, but it is not probable he will be permitted to do so.

Heon's Sarsaparilla is a purely vegetable preparation, being free from injurious ingredients. It is peculiar in its curative power.

He Desires Their Success.

NEW YORK, November 4.—Ex-Mayor Edward Cooper has received the following letter from President Cleveland:

EXECUTIVE MANSION, November 2.
Dear Sir—I don't think the newspaper editors you send, and now before me, amount to enough to raise a doubt concerning my desire for the success of both the State and the New York local tickets in the coming election. I know I am very much inclined to abstain from any interference with the New York City campaign, but fully believing the people of that city to be competent at management of their affairs, it should surely not be considered any interference when I, in regard to your letter, that the newspaper extracts totally misrepresent my wish and hopes in regard to the fate of your Democratic local ticket. I shall be very much pleased to see it entirely successful. Please present my congratulations to Mr. Hewitt on his recent letter, published this morning. Yours very truly,
GROVER CLEVELAND.

The letter referred to is one in which Mayor Hewitt said he foresaw more danger to the commonwealth from newspaper bosses than from political ones. The President's letter was read at a Democratic meeting to-night.

Hunting Beecher's Successor.

NEW YORK, November 4.—At the close of the regular Friday night prayer meeting in Plymouth Church, Brooklyn, to-night, a business meeting was held, at which the advisory committee reported in favor of extending a call to Rev. Charles A. Berry, of Wolverhampton, England, to fill the pulpit made vacant by the death of Henry Ward Beecher. A special meeting will be held November 15th, at which the church will be asked to take final action.
